CRISIS HAS BEEN SUCCESSFULLY PASSED.

And Probability of General Upheaval Disappears.

IN THE CONDITIONS IN RUSSIA

The Russian Government is using Every Means to Create that Impression, but So Far Has Not Been Successful.

St. Petersburg, July 27.—The government is using every means at its disposal to create the impression both at home and abroad that the crisis has been successfully passed and that the probability of a general upheaval has disappeared.

The semi-official press is filled with comforting assurances that the government now has a firm hold of the situation, and that the confusion and demoralization in the councils of the opposition produced by the coup render united action impossible. Moreover, the government seeks to create the impression that there has been little response among the masses for a general strike plan.

The application of the old methods, the government confidently asserts, has already landed the most dangerous of the leaders behind the bars and much stress is laid on the importance of the capture of a number of revolutionary ring leaders at Moscow.

Among the newspapers seized, the government claims, were found plans for a complete revolutionary movement. The government's sudden access of optimism, however, is in reality traceable to the consternation over the disastrous fall in Russian securities at home and abroad. The one thing the government cannot do without is money, and whenever the response to the outlawed parliament's appeal to the people to refuse to any longer pay taxes, the whole future depends on the ability of the government to continue its foreign operations.

The second installment of the big loan negotiated prior to the assembling of parliament is due Aug. 1, and the outlook in Russia has frightened the holders into refusing to pay in any further cash. The situation has evidently caused quite as much alarm among the financiers who underwrote the loan abroad, as it has among treasury officials here.

Finance Minister Kokovsov has been bombarded by telegrams from French, English and German bankers, urging on him the necessity of supporting the market. This accounts for the activity of the government bankers in bidding up prices on the bourse here and at Moscow yesterday as well as for the rosy view of the future sent abroad by the Official Telegraph agency last night under M. Kokovsov's inspiration.

As a matter of fact, the government can hardly be blind to the evidence under its nose that it is living over a volcano, and that the danger of an eruption is far from ended.

Cleveland, July 27.—Colonel A. J. Smith, general passenger agent of the Lake Shore and Michigan Southern railroad, died Thursday at Harriestown, N. Y., in the Adirondack mountains. BRYAN IS RECEIVED BY KING.

The Visit Was Paid at the King's Special Request.

London, July 27.—William J. Bryan, who was introduced by Ambassador Reid, was received in private audience by King Edward at Buckingham palace Thursday. The visit was paid at the king's special request, his majesty having notified Mr. Reid that he desired to meet Mr. Bryan. The interview was quite informal and was marked by the pleasing cordiality which the king is accustomed to show Americans in whom he is interested. Only the king, Mr. Reid and Mr. Bryan were present.

The conversation largely turned on the subject of peace and the conference of the inter-parliamentary union which the objects of which the king showed himself thoroughly in accord.

Subsequently the king received some 80 members of the inter-parliamentary union in the throne room. Congressmen Richard Bartholdt, of Missouri; T. E. Burton, of Ohio, and Rockwood, of Massachusetts, representing the American group. Mr. Bryan accompanied his three compatriots at this function, which was somewhat in the nature of a levee. King Edward, who wore plain clothes, stood on the front of the throne, while the visitors filed past. As each person was introduced, the king shook hands with him, making occasional brief remarks to the most prominent members of the party.

Cripples Engage in Battle.

Ithaca, N. Y., July 27.—A discussion among four cripples as to which was the most unfortunate ended in a bloody fight in St. John's hotel here Wednesday night. Abram Spicer, who has one shrunken leg, entered the hotel with a cripple who had lost both legs. Inside they found a one-armed man talking with John Diffin, the proprietor, whose left arm was amputated at the elbow. The one-armed guest started a discussion by saying that he was the most unfortunate man of the lot, and Spicer put forth the claims of his companion. In the course of the argument one of the cripples drew a pistol, but before he could fire there was a general mix-up in which Spicer received several long scalp wounds. Spicer has sworn out a warrant for Diffin who, he says, hit him with his own cane, charging assault in the third degree. The other two cripples have disappeared.

The victims of the poisoned coffee are out of danger.

President W. F. Vandiver, of the fair association, has received assurance from Mr. Bryan that he will visit the fair.

Chicago, July 27.—Within sight of their friends and companions, John Nelson, 36 years of age, and George Wilbur, 12 years of age, were drowned in the lake off Sixth street. Nelson lost his life in a heroic attempt to rescue the drowning, who, unconscious of danger, had waded into a deep hole where sand had been dredged out by a suction company.

Seima, Ala., July 27.—The first open cotton ball of cotton of the season was brought to the city Thursday by J. A. Goodwin, who lives 3 miles out on the south side of the river. The ball was fully matured with a strong healthy staple. Daily rains continue to fall in this section, but so far the planters say that no damage has resulted to the cotton plant.

BILL PASSED FOR COURT OF APPEALS

Will Be Submitted to People For Ratification.

DATE SET FOR THE ELECTION

Afternoon Session of the House Was Occupied in Discussing Bill to Appropriate \$50,000 to the Jamestown Exposition.

Atlanta, July 27.—One of the most important measures acted upon at this session was passed by the house of representatives Wednesday morning when the substitute bill of Mr. Shanton, of Fulton, to amend the constitution so as to create a court of appeals, was passed by a vote of 144 to 4.

The bill which passed has the sanction of the justices of the supreme court, and by the terms of the amendment of Mr. Felder, of Rich, the three judges of the new appellate court will be elective by the people at the election to occur on the first Tuesday after the first Monday in November next. The judges will be elected for a term of six years each, at salaries of \$4,000 each per annum, and will assume the duties of their office on Jan. 1, 1907, if the people of the state ratify the amendment to the constitution, no doubt of which is expressed.

The entire afternoon session was devoted to the consideration of the resolution of Mr. Russell, of Muscogee, to appropriate \$50,000 for a state exhibit at the Jamestown exposition. The committee of the whole house adopted the amendment of Mr. Wright, of Floyd, to make the appropriation \$30,000, but no vote was taken on the question by the house when the hour of adjournment arrived.

San Francisco, July 27.—The California supreme court has handed down a decision on an appeal made by Jno. Alexander Dowle from a judgment of the superior court ordering him to pay to Attorney Hugh Craig, \$1,764.90, with interest from 1888. The judgment of the lower court was affirmed. Craig advanced Dowle money to conduct a revival meeting at the Grand Opera house in this city in 1888, for which Dowle agreed to reimburse him from the proceeds of the collection. The proceeds did not come up to expectations and Craig brought suit to recover the money.

Maids and Bachelors Discuss Marriage.

Chicago, July 27.—A dispatch from Des Moines, says that to marry or not to marry, was the question which dominated the convention of bachelors and old maids at Forest City, Iowa. The convention closed with the question undecided. Race suicide entered largely into its discussions and the prevailing sentiment seemed to be that it would be better to have fewer marriages in the face of the records of the divorce courts. President Roosevelt was not endorsed because of his position on race suicide.

Chattanooga, July 27.—The encampment of regulars and national guards at Chickamauga national park is assuming shape. RAWLINGS ASKS FOR DEATH.

Doomed Man Says Execution of Alf Moore Will Exonerate Boys.

Atlanta, July 27.—With a persistence which cannot be accounted for, J. G. Rawlings, who is under sentence of death for the murder of the Carter children, has again written to Governor Terrell asking that the respite which he has been granted expire on Aug. 3 without further extension.

This time the doomed man asks that Alf Moore also hang, as he claims the negro will on the scaffold exonerate the three Rawlings boys.

The old man pleads pitifully for his execution in an earnest, faltering way. The letter follows:

"Hon. J. M. Terrell—Dear Sir: I see you have it in your power to let me and Alf Moore hang Aug. 3. I want to tell you that this is the right thing to do. My boys are innocent of that crime and if Alf is hung he will own the crime and then my boys will go free.

"Now, Mr. Terrell, you know I would not ask you to do this if I was not certain, and if you will let me and Alf hang, you will see.

"I have told you the truth and you know it. I have told you the truth, it is a great wrong to keep those innocent boys here, punishing as they are. If you will let me and Alf hang that will bring the whole thing to light and you will see you have done right.

"Don't grant another respite for me and Alf, and you will answer this and let me know what you will do, as I am anxious about this thing.

"Please answer at once. Yours for the right. (Signed) J. G. Rawlings."

Boy Kills Desperado.

Asheville, N. C., July 27.—News has been received of the death of Hiram Wilson, the most notorious of the modern "bad men" of western North Carolina, at the hands of a 17-year-old lad, Fred Sams, the boy who shot him, did so because Wilson had taken his horse and buggy from him by force, he being employed carrying the mail between Shelton Laurel and Flagpond in Tennessee. Wilson's body was taken to Burnsville for interment and no action was taken against Sams because the latter had acted in pursuance of his duty and perhaps in self-defense as well. Hiram Wilson was a "bad man" in the wild and western sense. He had killed two men and the people of several counties feared him as they did death when he was drinking. He was feared by people here, even, and the police hesitated before arresting him.

Train Crashes Into Cars.

Atlanta, July 27.—A Seaboard passenger train, coming into the city several hours late about daylight Thursday morning, crashed into two freight cars at the Bellwood avenue crossing, tore the cars into splinters and injured two persons. Elmer Laffew, a small boy, who lives at 59 Jones avenue, was so seriously injured that he was taken to the Elkin-Cooper sanitarium, where his condition is regarded as being critical. W. R. Johnson, pilot, was painfully injured, but was able to go to his home. Blame for the collision has not been fixed. None of the passengers on the Seaboard train was injured and both the engineer and fireman escaped without injury.

Former Missouri Official Dead.

It is presumed the trouble came from his connection with the Young's Men's Club, of an Atlanta suburb. Binder is believed to be on his way to jail.

SHERIFF HANGS NEGRO ON SMITH'S ISLAND

In Order to Prevent Burning by Mob.

HAD ASSAULTED TWO WOMEN

Sheriff Took Negro From Somerset County to Island and Executed Him. Confessed His Crime—Mob Outwitted by Sheriff.

Chrisfield, Md., July 27.—William Lee, the negro who was sentenced to death in Baltimore three weeks ago for assaulting two women in Somerset county, was hanged Thursday on Smith's Island by the Sheriff in the presence of deputies and a few witnesses.

The mob that had threatened to burn Lee at the stake was outwitted by the sheriff.

Lee's crime created unprecedented excitement throughout the eastern counties of Maryland and for weeks the popular fury was such that governor Warfield deemed it prudent to have him confined in the Baltimore city jail for protection.

The exact place of execution was kept secret, even from those who were to accompany the sheriff and culprit as deputies and witnesses. To carry out this purpose Sheriff Brown appeared in Baltimore Wednesday afternoon late, placed his prisoner aboard a steamer of the Maryland oyster navy and immediately sailed down the bay. He took with him a gallows which had been borrowed from Baltimore county and also a coffin, and was prepared to hang Lee on the deck of the vessel after reaching the waters of Somerset county should there be any signs of a mob on shore.

At an early hour Thursday morning the steamer appeared off Smith's Island, the prisoner was speedily taken ashore and the scaffold quickly erected by a carpenter who had been brought from Baltimore for that purpose. The culprit, accompanied by his spiritual adviser, was led up the scaffold, the noose was adjusted and the execution was quickly over.

Lee confessed his crime.

Hurt by Train.

Birmingham, Ala., July 27.—W. T. Norton, a traveling salesman, is suffering from serious injuries caused by his buggy being struck by a car at Pratt City and throwing him out. This was another of several accidents owing to a severe windstorm on Tuesday afternoon. Professor F. M. Root, who was watching the building of a house near North Birmingham, had his leg broken and sustained a severe wound on the head by the front wall collapsing and falling on him. Several workmen were also injured, but none seriously.

Killed From Ambush.

Memphis, July 27.—A special to the News-Heimster from Wynne, Ark., says that on Wednesday night H. A. Leaptrot and family were sitting on their front porch near Cherry valley, three men rode up to the gate in the darkness and fired into the group, instantly killing Mrs. Leaptrot and fatally wounding Mr. Leaptrot. Thursday officers arrested the Rev. Woolbright brothers, charging them with complicity in the crime. Two years ago Leaptrot killed a brother of the Woolbrights.

A FEARFUL TRAGEDY AT TURPENTINE CAMP

White Man Murdered and Two
Negroes Lynched.

THE STORY FROM KISSIMMEE

The Victim Was Edward Granger, Formerly of Putnam County, and a Relative of Officer J. H. Granger—Two Perpetrators Reported Lynched.

Information was brought to this city Friday of the murder of Edward Granger, formerly of Grandin, by two negroes on the McCall naval stores farm near Kissimmee.

Mr. Granger, who is a first cousin of Deputy Sheriff J. H. Granger of this city, was employed as a woods rider on the McCall place. For some reason he had apparently caused the displeasure of the negroes, whom it is said waylaid and shot him.

This occurred on Wednesday night. The negroes, the names of whom could not be learned, made their escape, but an enraged and indignant mob went searching for them, apprehending them late Thursday afternoon. It is reported that a lynching followed.

Inasmuch as there has been no press report made of this affair, the information is very meager. It is a fact that Mr. Granger was murdered, however, as T. J. McRae of this city, who was in Kissimmee at the time of the tragedy, stated that he saw the victim after his death.

Friends of Mr. Granger sympathize with him in the sad and sudden ending of his relative's life.

A Tragic Finish.

A watchman's neglect permitted a leak in the great North Sea dyke, which a child's finger could have stopped, to become a ruinous break, devastating an entire province of Holland. In like manner Kenneth McIver of Vanceboro, Me., permitted a little cold to go unnoticed until a tragic finish was only averted by Dr. King's New Discovery. TRIAL BY ORDEAL.

The Queer System That Exists in the Sinal Peninsula.

In the Sinal peninsula trial by ordeal is still practiced. In all criminal cases where no witnesses are forthcoming the judge, "el mabashan," tests the suspected person by fire, by water or by dream. In the first the judge places an iron pan in the fire until it is redhot and gives it to the accused to touch three times with his tongue. If marks of burning are shown on the tongue the accused is pronounced guilty. The theory apparently is that if he is not guilty the moisture on the tongue prevents it from being burnt; if guilty his tongue would dry up from fear of being discovered.

The test by water is described as follows: "The 'mabashan' sits with the accused and the spectators in a circle with a copper jug full of water placed in the center. This jug is then made to appear to move round the circle by means of witchcraft or hypnotism. If the jug returns back to the judge the accused is pronounced not guilty, but if the jug stops opposite the accused he is pronounced guilty."

This description is rather wanting in detail, and it is difficult to know how a jug which only appears to move can be a trustworthy index. In the test by dream the "mabashan" sleeps and sees in a dream if the accused is guilty or not.—Chicago News.

Famous Baths.

Marie Antoinette's bath, which was prescribed by her doctor, was a compound of aromatic herbs mixed with a handful of salt. She took it cold in summer and tepid in winter.

Later on Mme. Tallien had brought every morning to her house twenty pounds of strawberries and two pounds of raspberries, which were mashed in her bath of warm milk and water. Another preparation used by the eastern women is composed of barley, rice, horrage, thyme and marjoram boiled together and then thrown into the water.

Ninon de l'Enclos took a bath every night in which there were salt, soda and three pounds of honey mixed with milk, all well beaten in tepid rain water.

Cause For Liberty.

An old Georgia dandy who had buried his money forgot to blaze the tree which stood near the spot. Getting mixed up to the locality, he knelt down and asked the Lord to guide him to the place. While he was praying a storm came up and lightning struck the nearby tree, and he found his cash.

"Dar, now," he muttered, "look how Providence answers de righteous! I got a great min' ter put a nickel in de collection hat next Sunday!"—Atlanta Constitution.

GAINESVILLE & GULF ELECTS NEW OFFICERS

Interesting Meeting of the Directors of That Railroad.

IMPROVEMENT CONTEMPLATED

While No Authentic Information Is Given, It Is Certain That the Road Will Push Rapidly to Tampa, and Will Build to Jacksonville.

The annual meeting of the directors of the Gainesville and Gulf Railway Company was held recently, at which a great deal of business of importance to the road and to this section was discussed and acted upon.

The following officers were elected for the ensuing year: S. F. Parrott, Macon, Ga., president; A. P. Stocky, Ocala, first vice-president; B. W. Blount, Ocala, second vice-president; F. M. Simonton, Tampa, general counsel; C. R. Woods, Gainesville, secretary.

The following appointive officers were made: C. N. Atkinson, general manager; J. B. Cutler, general superintendent; L. E. Barker, traffic manager; H. E. Taylor, treasurer.

There has been a slight change in the board of directors, which for the coming year will be as follows: A. P. Stocky, B. W. Blount, J. B. Cutler, C. N. Atkinson, F. M. Simonton, S. F. Parrott, Geo. W. Parrott.

While nothing authentic has been given out, it is understood that the management of the Gainesville and Gulf will push the work rapidly southward to Tampa, and that within a reasonable time through trains will be running. It is also rumored that the road will be extended from Sampson City to Jacksonville, affording a through line by a new and nearer route.

Extensive improvements are also contemplated in the roadbed and rolling stock and equipment.

The management of the Gainesville and Gulf is determined to make this the trunk line of Florida in reality.

Scotts Will Have 'Possum.

Clifford Scott of East Gainesville made quite a novel capture a night or two recently which furnished a great deal of real excitement for the young man.

Clifford's parents have been missing eggs regularly from the fowl house of late. Now, eggs are extraordinarily scarce, it being difficult at times to purchase them in the market—and difficult indeed to purchase the fresh kind that you would gather from your own hen's nest.

Clifford decided to "lay" for the "fellow" who was taking his eggs, and consequently kept a watch. He heard a noise in the fowl house, and upon creeping quietly to the place discovered a half-grown 'possum feasting on the delicious hen fruit.

The 'possum was captured, and when the animal has grown a little more there's going to be a 'possum dinner in the Scott household.

GAINESVILLE ELKS HAD BIG SESSION

Plans of Building Was Discussed and Conclusion Arrived At.

AN EXCLUSIVE CLUB HOUSE

And Home For Elks, With No Commercial Features, Was Decided Upon—Committee Appointed, Who Will Submit Plans at Next Meeting.

One of the most largely attended and interesting meetings ever held by Gainesville Lodge No. 800, B. P. O. E., since the night the lodge was instituted, was held on Thursday evening, the drawing card being the subject of the new home to be erected by the Elks.

There were present nearly a hundred enthusiastic members of the lodge who are desirous of having a building erected at once. The matter was thoroughly discussed, after which, by motion, a committee was appointed to secure plans of a club house and exclusive Elks' home, at a cost not to exceed \$8,000. The Elks have one of the most desirable lots in the city, on East Main street, at the foot of which thoroughfare the new government building, to cost \$60,000, will be located.

The discussion of what kind of a building was desirable was an open one, and the ideas were diversified. Some thought that a building with an opera house attached would be the proper thing; others had the idea that store rooms or offices would prove the proper thing as a source of revenue, while others expressed their favor for a club house and Elks' home proper, without a view to profit.

Inasmuch as a building with commercial features would cost from \$18,000 to \$25,000, while an up-to-date, comfortable home could be constructed for less than one-half the money, and considering further that the latter in the end would prove much more satisfactory, the exclusive home proposition was carried, and was made unanimous.

The committee will make its report at the next meeting, and it is expected that work will begin on the building shortly.

HAD BIG MEETING.

Local Camp, Woodmen of the World, is Growing Very Fast.

The local camp, Woodmen of the World, is growing very rapidly. New vigor seems to have been injected into the members who have lain dormant for so long, and after the State organizer, Carter H. Dame, "punched them up," they got busy, with the result that since their energy and enthusiasm has been awakened thirty-one new members have been elected to the order.

The camp held an enthusiastic and largely attended meeting Thursday evening, at which time it was decided to hold a big log rolling on Thursday night of next week, which promises to prove a banner occasion, and one that will long be remembered. A committee was appointed on arrangements, of which Organizer Dame is chairman, and something real good is assured.

FIGHT EXPECTED WITH CLEAN.

Posses of 300 Have Been Summoned to Arrest Party of Feudists.

Brinkley, Ky., July 27.—Much excitement prevails here as the result of an order by Judge Gardener, of this county court, summoning a posse of 300 men to bring in a party of feudists, dead or alive, from Beaver Creek.

As a final warning to the mountaineers, Sheriff Hays left Hinchman on Wednesday for Beaver Creek, where certain members of the Hall and Martin families, under indictment on the charge of murder, have been defying the authorities for some time. The Halls are at the home of Dick Hall, the wounded leader of their faction, and Wyatt Martin is hiding in the mountains with 50 well-armed men.

Both leaders are surrounded by armed mountaineers and if the sheriff attempts to make any arrests, a fight is expected.

Blunder Nearly Cost \$150,000.

St. Louis, Mo., July 27.—The mistake of Alonzo Kimberlin, a bell boy, at the Terminal hotel station, in the union station, in giving a suit case containing \$150,000 in cash and negotiable securities to the wrong man, caused William Bender, Jr., of Mankato, Minn., 18 hours of anxiety, which ended when the suit case was returned intact. Kimberlin, who was entrusted with the grip while Bender bought his ticket, was hailed by a man who, he says, was dressed similarly to Bender, saying "Come on, ready now." Kimberlin followed the man to a Chicago bound train, which immediately departed, and on his return to the station was found by Bender, and explanations followed. The suit case was intercepted by telegraph at Litchfield, Ill. Bender departed for Anderson, Ind., and he again selected Kimberlin to carry the suit case to the train.

The Smile

That won't come off appears on baby's face after one bottle of White's Cream Vermifuge, the great worm medicine. Why not keep that smile on baby's face. If you keep this medicine on hand, you will never see anything else but smiles on his face. Mrs. S., Blackwell, Okla., writes: "My baby was peevish and fretful. Would not eat and I feared he would die. I used a bottle of White's Cream Vermifuge and he has not had a sick day since." Sold by W. M. Johnson.

Agreement is Reached.

Nashville, July 27.—The loyal Cumberland Presbyterians of West Tennessee met at Trenton Wednesday and discussed the division in the church. A voluntary association under the name of Council of Loyalists was formed and officers elected.

DO YOU GET UP

WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. Y., on every bottle.

New York, July 27.—Brigadier General McLeer, accompanied by a few G. A. R. veterans started Wednesday for Manassas, Va., to select a site for the monument in memory of the members of the old Fourteenth regiment, who fell in the second battle of Bull Run. Gregory, a prominent citizen of Rockville, this county, whose death was the result of several weeks' illness from typhoid fever, took place from St. Paul's Methodist church, Rev. S. A. Harris officiating. She was stricken with the fatal disease the day before her marriage with W. H. Bonner, Jr., was to have been celebrated.

She reported to the police authorities at Poughkeepsie that the man was Constantine and he was at once arrested.

"I was a loser in a twenty-year battle with chronic piles and malignant sores, until I tried Bonkin's Arnie's Salve, which turned the tide by curing both, still not a trace remains," writes A. M. Hume of Farmville, Va. Best for old sores, cuts, burns and wounds. Kills all vermin.

Cloudburst Does Great Damage.

New York, July 27.—A cable dispatch from Turin says that a terrible cloudburst in the region of the Mont Cenis tunnel caused great loss of life and property Wednesday. Almost the entire village of Fornex was destroyed. Twenty-two houses were completely demolished, and the damage thus far has been ascertained 15 persons have been killed and 60 wounded. The damage is estimated at \$1,000,000. From Modena to Bardonecchia the country was ravaged by the storm. Sanitary measures were rendered almost impossible at Fornex, owing to lack of laborers. The storm destroyed the electric cables causing a lack of light and power, and drinking water is scarce owing to the recent great heat.

Asthma Sufferers Should Know This.

Foley's Honey and Tar has cured many cases of asthma that were considered hopeless. Mrs. [Adolph] Bueeing, 701 West Third St., Davenport, Iowa, writes: "A severe cold contracted twelve years ago was neglected until it finally grew into asthma. The best medical skill available could not give me more than temporary relief. Foley's Honey and Tar was recommended and one fifty-cent bottle entirely cured me of asthma which had been growing on me for twelve years. If I had taken it at the start I would have been saved years of suffering." J. W. McCollum & Co.

"I am only 82 years old and don't expect even when I get to be real old to feel that way as long as I can get Electric Bitters," says Mrs. E. H. Branson of Dublin, Ga. THE POWER OF STEAM.

Many May See But It Takes Genius to Realize.

When James Watt saw the steam raising the kettle lid to jump up and down he said "There must be power in that steam that it can lift such a weight."

There was. Millions prior to him had seen the same phenomenon and regarded it as an unexplained mystery. Recent scientific research has put its finger on the "cause" of Watt's discovery, and has unearthed a tiny germ which eats the life from the roots of human hair. Newbro's Herpicide cures this germ, and consequently restores the hair to its natural state.

Sold by leading druggists. Send for stamps for sample to The Herpicide Co., Detroit, Mich.

Swede Charged with Larceny.

New York, July 27.—Samuel Schroekowsky, a Swede, former resident of Lidköping, Sweden, was arrested on Wednesday at Ellis Island where he had landed from the steamer Carmania, charged with having fled from his native city with a large sum of money not his own. Later the prisoner was committed to the Tombs by a United States commissioner to await Swedish extradition papers. When arrested Schroekowsky had \$1,273 in American money in his pockets. It is alleged that the prisoner who was employed as a clerk by a clothing merchant in Lidköping, sold off the stock of the store and decamped with the proceeds while the owner was absent.

Canned Goods to Bear Date.

London, July 27.—The health officers of the metropolis have formulated proposals dealing with canned goods for the consideration of the various borough authorities. The most important clauses provide that the name and address of the manufacturer and the date of canning be impressed on all tins; that one piece of each consignment shall be opened on importation and examined before the goods are marketed and that food intended for canning shall be inspected by an independent official prior to being canned. The use of preservatives is strictly prohibited.

Charged with Larceny.

Boston, July 27.—Two arrests, which are said by the police to clear up complications of systematic thievery in the wool warehouse of Louis Moss & Co., by which the firm has lost stock valued at about \$10,000, were made Wednesday, when Thomas O'Malley and Michael F. King, of South Boston, were taken into custody, charged with the larceny of two bales of merino wool. O'Malley has been a trusted employee of the Moss company for 15 years.

Is Disease a Crime?

Not very long ago, a popular magazine published an editorial article in which the writer asserted, in substance, that all disease should be regarded as criminal. Certain it is, that much of the sickness and suffering of mankind is due to the violation of certain of Nature's laws. But to say that all sickness should be regarded as criminal, must appeal to every reasonable individual as radically wrong.

It would be harsh, unsympathetic, cruel, yes criminal, to condemn the poor, weak, over-worked housewife who sinks under the heavy load of household cares and burdens, and suffers from weaknesses, various displacements of pelvic organs and other derangements peculiar to her sex.

Frequent bearing of children, with its exacting demands upon the system, coupled with the care, worry and labor of rearing a large family, is often the cause of weaknesses, derangements and debility which are aggravated by the many household cares, and the hard, and never-ending work which the mother is called upon to perform. Dr. Pierce, the maker of that world-famed remedy for woman's peculiar weaknesses and ailments—Dr. Pierce's Favorite Prescription—says that one of the greatest obstacles to the cure of this class of maladies is the fact that the poor, over-worked housewife can not get the needed rest from her many household cares and labor to enable her to secure from the use of his "Prescription" its full benefits. It is a matter of frequent experience, he says, in his extensive practice in these cases, to meet with those in which his treatment fails by reason of the patient's inability to abstain from hard work long enough to be cured. With those suffering from prolapsus, anteversion and retroversion of the uterus or other displacement of the womanly organs, it is very necessary that, in addition to taking his "Favorite Prescription," they abstain from being very much, or for long periods, on their feet. All heavy lifting or straining of any kind should also be avoided. As much out-door air as possible, with moderate, light exercise is also very important. Let the patient observe these rules and the "Favorite Prescription" will do the rest.

Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send to Dr. R. V. Pierce, Buffalo, N. Y., 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound.

If sick consult the Doctor, free of charge by letter. All such communications are held sacredly confidential.

Dr. Pierce's Pleasant Pellets invigorate and regulate stomach, liver and bowels.

THE GROWTH OF TROUT.

Age, Food and Temperature seem to Have No Bearing on Size.

The Salvelinus fontinalis, which is currently but inaccurately called brook trout, was supposed for many years to be a small fish. Agassiz was largely instrumental in exploding this fallacy. It is not an uncommon thing for an angler with ordinary luck to get a six or seven pound trout of this variety. It is known that a trout may grow to weigh eleven or twelve pounds. There is, however, great difficulty in accounting for its variation in size.

In northeastern Canada there are large streams and lakes in which only fingerlings have ever been found. In the immediate vicinity of such waters three and four pound trout are quite common and seven and eight pounders are not phenomenal. In all these waters crustacea do not abound; there are no small fish of any kind except small trout. All the fish are pure fly feeders. At some places, it is true, frogs abound, but taken as a whole the difference in food supply is not an adequate explanation for the difference in growth.

There is no substantial difference in the waters as to temperature, size, origin and course. Climatic conditions are the same. The small trout taken to virgin lakes in which there are no fish have sometimes grown to a great size, have sometimes remained small and sometimes have not thrived. The anglers who haunt these waters have not yet found a satisfactory explanation of this peculiar condition of things. It is one of the mysteries which lends fascination to the art. "You never can tell what is going to happen when you go fishing."—St. Paul Dispatch.

Long Words or Short?

Which shall we prefer in speech and writing? Almost everybody will vote for the short word, and almost everybody will be voting for the best candidate. The short words are usually the strong words. They make up in muscle and liveliness what they lack in size, says the Manchester Union. And they are readily in the eyes of men who have thoughts that they wish to lodge in other minds. A man who should run out into the street and yell "Conflagration! Conflagration! Conflagration!" when his house was burning would be thought to be making a jest of the affair. And so in all matters where ideas are to be handed out quickly and clearly—the short word has first choice.

Cockfighting Among the Greeks.

The sport of cockfighting seems to have originated with the Thesmoctoles of Greece. When he was leading an army against the Persians he noted two cocks in a desperate battle. To stimulate the courage of his soldiers he pointed out the bravery of birds, and, having won his battle with the Persians, he ordered that an annual cockfight should be held to celebrate his victory. In England the records show that the first cockfight took place in 1191.

A Hard Lot

Of troubles to contend with spring from a torpid liver and blocked bowels, unless you awaken them to their proper action with Dr. King's New Life Pills, the pleasant and most effective cure for constipation. They prevent appendicitis and tone up the stomach. Use at all drug stores.

A Lure For Cock Robin.

Two coins clinked together give so good an imitation of the robin's metallic note that this device has long been employed in England to attract the welcome "harbinger of spring." Formerly male robins were snared by the clinking of two copper pennies near a dummy bird. The dummy was perched on a twig smeared with bird lime, and cock robin, attracted by the sound and suspecting a rival, flew at him with blood in his eye. This is in violation of the bird laws in the United States, and no one who lives where robins make their home in confidence is likely to give the odd trick so unpleasant a finale. The clinking coppers serve a much more agreeable purpose as a means of rendering cock robin sociable.

A Fortune in a Song.

Song writing is one of the most lucrative of occupations, provided one has the knack of appealing to the popular taste. The average writer stands a better chance of making money by producing pathetic rather than so-called "comic" songs. "The Lost Chord" has made three or four fortunes. It has been the most lasting success on record, and for years Sir Arthur Sullivan, as composer, and Madam Antoinette Sterling, for whom it was specially written, received a royalty amounting to 12 cents each on every copy sold. It was a gold mine to the publishers too.

Onion Soup and Fame.

Membership in the French academy, the hoped for reward of Gallie writers, was once closely associated with onion soup. During the restoration in France a club was formed under the title of "Diner de la Soupe a l'Onion." This organization contained twenty members. It met every three months, when the dinner was opened with an onion soup. The club was to endure until every associate was elected to the academy. This was accomplished in 1845, when the last banquet was held.

MANHATTAN STREETS.

They Have Names With Reason and Names Without Reason.

Manhattan Island has displayed very little system in naming its streets. They have names with reason and without reason, and in most cases where there have been reasons the march of improvement and lapse of memory have nearly buried them out of sight.

Great Broadway, the largest commercial thoroughfare in the world, has a good reason for its name, though the city now has broader ways, but in the early days of New Amsterdam it was the broadest of them all and the most important, leading as it did through the length of the island and into the far country of the north. Then Broad street was quite properly so called, for it is broader than Broadway, though quite insignificant in length, being formed somewhat like the Dutchman who laid it out.

You may well wonder why Beaver street is so called, for there is no evidence of the beaver there, as there was when it was named. It was once only a beaver path leading to a swamp now covered by Exchange place. And Exchange place suggests its baptism, for on the bank of that swamp the early settlers met for barter, and afterward on that site were erected houses for exchange and sale which have been continued to this day.

So it is with Wall street, a little further north. The wall erected for protection in 1653 by the Dutch, who feared a foray of New Englanders, long ago disappeared, but the name remains not only to designate the street, but to describe matters financial.

Again, farther north, we find no reason for Maiden lane. The maidens who made the path on their journey back and forth with laundry from the stream that flowed where Gold street now is have long ago been forgotten, but their memories have been preserved in the name of the street. And Gold street? There never was gold there, but the street did run along the foot of an elevation known as "Golden hill" because of the profusion of yellow wild flowers that crowned it in the spring.

Then there is Bowling Green. There is nothing present to suggest the name, but there was a little more than 200 years ago, when Hans and Fritz played bowls there and called it "Bowling Green." Close by is Battery place, with no indication of a battery or thirty-two pounders, excepting the openings yet remaining in the Aquarium. Go on up to Canal street, and you will find no canal other than a huge sewer under the street paving that marks where once was a canal that drained Collect pond, on the site of the Tombs, through a treacherous swamp into the North river.

There was a bit of poetry and sentiment in the old names and their associations. Soon these were mostly dropped, a little sentiment being preserved in streets named after individuals, suggested by Hudson, Astor, Roosevelt, Clark, Franklin, Fulton, Clinton, Cooper and so on. Though "Moore" might be mistaken for a person's name, it was originally Moor, then a mooring place.

Then came the entirely prosaic age, when streets were numbered and lettered, beginning in an arbitrary fashion. First street is not first any place, excepting the first north of Houston street, being a mile and a half from the battery, where it might have been with some reason. So with First avenue and Avenue A.—New York Herald.

Advantages of Short Sight.

An Austrian scientist is inclined to think that short sightedness is not an unmixt evil. He doubts if school work causes it. With the aid of a large staff of enthusiastic medical helpers, the eyes of more than 15,000 school children were examined, and a great mass of information was collected and analyzed. The professor finds that among the most extreme cases of short sight hand workers greatly outnumber eye workers. The majority of these are declared that their defective sight had existed from birth or as long as they could remember. He declares that his investigations prove that school work never produces extreme short sightedness, but only a slight defect, which, far from being a disadvantage, may even be regarded as a merit. For, he says, persons with normal sight, although they can see distant objects quite clearly, cannot read or write without the aid of glasses when they reach the age of fifty, whereas the slightly short sighted individual can always read and write as comfortably and requires glasses only for distant objects, a much happier state of things.

The Poor's Troubles. "What did you find the most interesting thing when you wrote your column?" "To find some one who would let me read them to him."—London

Queer Drummer.
"There's a story," said a drummer, "about a commercial traveler whose line was tunnels and post holes for fences. Him I never met. I did meet once, though, a drummer selling iron churches and suspension bridges. Another time I met a drummer who said his line was pupils. What did he mean by pupils? He meant, I found, glass eyes for stuffed animals, for dolls and for human beings. One of this man's favorite amusements was to open his sample case and ask the people present to pick out the eye that best matched their own. The people made awful mistakes in this, for nobody, it seems, knows the color of his own eyes."—Cincinnati Enquirer.

An Eye Opener.
"How does your father seem to regard my coming here?" anxiously asked Adolphus of little Bobby, while Miss Maud was upstairs getting ready to present herself.
"He don't care nothin' about it," replied Bobby carelessly.
"So he has no objections, eh? But what did he say, my little man?"
"He said if Maud had a mind to make a fool of herself, why let her."—Pearson's Weekly.
